

REMARKS/ARGUMENTS

Drawing Objection

The Office issued a Notice of Drawing Inconsistency with Specification in particular as to Figure 3 for being contained in the Drawings but no listed in the Brief Description of the Drawings in the specification.

In response, paragraphs 0007, 0008, and 0010 have been replaced. Figure 3 is an arrangement of the bird deterrent shown in Figures 1 and 2. The omission of brief description and specification of Figure 3 was unintentional. Applicant maintains that no new matter has been added and the amendment has corrected the inconsistency.

Respectfully submitted,
